IF THE PHILIPPINE GOVERNMENT is to be able to deal with the growing problem of drug addiction, it must first deal with the problem of the drug trade. The government must be able to control the supply of drugs and the demand for them.

Impeachment juggernaut unleashed on Corona

Corona, Calif. (AP) — A powerful political juggernaut has been unleashed against the city of Corona, Calif., as a coalition of local and state officials has vowed to impeach the city's mayor, Robert J. Corcoran, for alleged financial misdeeds.

The coalition, which includes the Orange County Board of Supervisors, the San Diego County Board of Supervisors, and the San Bernardino County Board of Supervisors, has filed a motion with the state court to impeach Corcoran. The motion alleges that Corcoran has misappropriated city funds and has engaged in a pattern of financial abuse.

Corcoran, who has served as mayor since 1972, has denied the allegations and has vowed to fight the impeachment. He has also filed a motion with the state court to dismiss the impeachment charges.

The coalition's motion is based on a report by a state auditor that Corcoran has misappropriated city funds and has engaged in a pattern of financial abuse. The report alleges that Corcoran has used city funds for his personal expenses and has used city funds to pay for his legal fees.

PH seen to remain more resilient than peers in Asia

By Peter C. Brannan

MANILA, Philippines—The Philippines is expected to remain more resilient than its Asian peers in the face of a global economic downturn, according to a report by the International Monetary Fund (IMF) released last week. The report, titled "Philippines: Selected Issues," highlights the country's strong fundamentals, including a robust financial system and a growing private sector. It also notes that the Philippines has a relatively low level of external debt and a strong track record of meeting its international obligations. The IMF predicts that the Philippines will continue to grow at a steady pace, despite the challenges posed by the global economic crisis.

Insurers seek deferment of capital hike implementation

By Kenneth C. Brannan

MANILA, Philippines—Insurance companies in the Philippines are seeking a deferment of the implementation of a new capital requirement, according to industry officials. The new requirement, which is part of the Insurance Company Act of 2010, mandates that insurers must maintain a minimum level of capital to ensure the solvency of the industry. However, industry officials argue that the current capital levels are sufficient to meet the needs of the market, and that a deferment would allow them to better manage their assets and liabilities. The Insurance Commission (IC) has agreed to consider the request, but has not yet made a final decision.
